SECOND TARIFF-SETTING AND EXPANSION PROCESS FOR TRUNK TRANSMISSION SYSTEMS

PRE-QUALIFICATION OF CONSULTING COMPANIES FOR TRUNK TRANSMISSION STUDY

The National Energy Commission, in conformity with article 88 of the General Electric Services Law and Exempt Resolution CNE N° 859, of August 27th, 2009, published on its website, www.cne.cl, calls domestic and international consulting companies with experience in electric transmission system planning and appraisal studies to present their background information for the process of pre-qualification of consultants eligible to carry out the Trunk Transmission Study, as part of the tariff-setting and expansion process for trunk transmission 2011 – 2014.

The pre-qualification specifications will be available on the National Energy Commission's website, www.cne.cl, no later than Tuesday, September 15th, 2009.
